The princess's rescue stories have continued again, this time to two brothers Mario and Luigi will have to overcome the challenge of how to confront Bowser and the Koopas. Just when you join, it knows only clearly. With the familiar 2D scrolling platform gameplay, you will control the adventures of Mario or Luigi in a world full of challenges and enemies. In this game the main element is to collect gold coins to unlock new areas on the world map. Gold coins can be hidden in the environment, or you can use items to create them in a special way. Golden flowers help turn blocks into gold coins, rings will turn enemies into gold coins and block masks create gold coins as the character moves. With each gold coin collected, they will be displayed right on the screen to help you keep track easily. In addition to the main game mode, there is also Coin Rush mode, which is unlocked as soon as the player completes the first world. By participating in Coin Rush, you will be taken into the game with the task of collecting many gold coins. When you leave for checkpoints that are displayed as a flag, you can extend the countdown time. If you reach the top of the flag, the amount of gold will be doubled. When performing each level, the amount of gold also acts as reaching this level instead of the score, you can also challenge other players to see who will collect more gold coins.
